Thank you

Congratulations on your purchase of the yowel™ eco-friendly towel dispenser & your dedication to helping the environment. If each household uses one less 70-sheet paper towel roll it will save 544,000 trees each year. Imagine never having to purchase another roll of paper towels again! Please spread the word to your friends & family & let them know there is an easy & cost effective way they can help the environment. The yowel™ is manufactured in St. Charles, Illinois and built to last. Never having to buy another paper towel is just the icing on the cake. We sincerely appreciate your business. Enjoy & thank you.

FEATURES & INSTRUCTIONS

HOOK & MESH BAG INSTALLATION

We recommend cleaning all surfaces to apply self-adhesive parts.

HELPFUL INFORMATION

1. We suggest you first wash & dry the yowel™ towels. The reason we suggest this is you want them not to be folded but fluffy. For shipping it was necessary to have the towels folded & wrapped.
2. We have found the more you wash the towels the more absorbent they become. Sometimes you may want to use more than one towel at a time due to the size of the spill. If you use more than one paper towel you may consider it a waste but with yowel™ it is not a waste as they can be washed & reused.
3. To fill your yowel™ just remove the yowel™ from its support bracket, take a handful of towels & stuff them in either side of the removable ends which snap right back in place. Put the yowel™ back into the support bracket and your ready to go. The yowel™ is designed to hold 40 towels. Sometimes more than one comes out & if it does just stuff it back in.
4. Mounting instructions are simple, just follow the Features & Instructions on page 2.

yowel™ REUSABLE TOWEL WASHING INFORMATION

Wash on a regular cycle, can wash with other towels or clothes. Water temperature cool or warm. Towels can be tumble dried on low.
